

The Jane-athon ALA Summer 2015 Preconference June 26, 2015

Part Six R-ball Discussion

How we combined the r-balls

- We used Windows:
 - Copied the starter folder for the Janeathon1-150130-curated r-ball (with 404 records) as Janeathon2-150626-raw
 - Copied the RIMMF data + associated MARC records, from each of your r-balls to this Janeathon2 folder
 - Used copy option ‘Don’t copy: no files will be changed, leave this file in the destination folder’
 - This added any new records that you created, but left the records in Janeathon2 untouched

» Because of the ‘inverse relationships’ in the RDA element structure, links to the starter records that you added to new records are re-established when the combined folder is opened.

Amalgamation issues

- Any new or changed attribute data that you added to the Janeathon1 records was lost
- ‘Duplicate’ entity records created in different r-balls were added; some with new or different attribute data and/or relationships
 - Should those records be:
 - Kept and linked
 - Deleted, with contents merged (but what about the relationships)

Clean-up the final r-ball

- We will be ‘tidying-up’ the amalgamated Janeathon2 r-ball later
- We will put both the raw r-ball and the curated r-ball on the [Jane Austen R-Balls](#) page, for experimentation along with:
 - Jane Austen base r-ball
 - Jane-athon 1 (raw) r-ball
 - Jane-athon 1 (curated) r-ball

Jane Austen base r-ball: Statistics

Entity records	Base
Works	15
Expressions	37
Manifestations	15
Persons	8
Corporate bodies	
Families	
Totals	75
MARC records imported	59
RIMMF records created	16
Relationships	
Primary relationships	104
Other relationships	123

Carrier counts	Base
Audiocassette	
Card	
Object	
Online resource	
Other	
Sheet	
Unspecified	
Videocassette	
Videodisc	
Volume	15
Content counts	
Computer dataset	
Spoken word
